Testimonials

West Leederville, WA

I moved back to Perth after a 17 year absence into a townhouse in West Leederville that had been rented out for the last 15 years. My sister-in-law knowing my busy lifestyle and lack of patience and interest in DIY had seen the Million Dollar Makeovers stories on the Home in WA program and suggested that I contact them.

I first met Sasha on Thursday 8 August and just over two months later I moved back into my completely gutted and fully renovated townhouse. Sasha bowled me over at our first meeting and came up with some fabulous design ideas to complement the few of my own. I never imagined that work would even start before Christmas but when Sasha heard that I was leaving for a 3 week trip to Europe in early September her immediate response was that they could start and have most of the work completed while I was away, thus minimising the inconvenience of having to vacate my home for four weeks.

Without exception everyone on the MDM team has been professional, friendly and accommodating and has done everything possible to take the stress out of renovating. Sasha your business concept is amazing and fills a real gap in the market. I have been telling all my friends, colleagues and anyone else who will listen to me about you and the MDM team as well as your band of amazing tradies. Please feel free to pass my contact details onto any prospective clients who might want to speak with a satisfied client. I am looking forward to having the exterior renovated but will take a breather until the New Year and enjoy my new home (interior).

JANE SCOTT

Marmion, WA

Thank you so much for our stunning new home. What you and your wonderful team have done in such a short time is absolutely amazing.

At the first meeting your warmth, your passion and your enthusiasm to create a new home for our family was infectious and exciting. Your ability to listen and find ways to make our dream a reality is so much appreciated. We have found your whole process really enjoyable, from discussing design ideas to choosing colours to seeing massive progress on a daily basis. Your generosity and desire to see everything finished off to the highest standard has meant that we now have a beautiful home where our family will be very happy for a long time to come. We wish you all the very best as your amazing business grows.

We are very excited to move into our new home. We are incredibly happy with the results. As I first told Sasha (CEO) that I never believed in that house, wanting to knock it down or go through major remodelling. I can't believe I didn't see its beauty. I have recommended you to all of my friends and will do so to anyone I meet in the future! And thank you Sasha. We could not have done this project without a company like yours. What you do is amazing and you certainly have an awesome talent and eye for the business. I am looking forward to seeing what the valuation of the property comes in at now. Thanks once again and I really now want to buy another property to renovate again!
